CEENBoT
Components for Sensor Board

There are two sensor boards—a left one and a right one. One half the components are for one board and the remainder for the other.

There are components mounted on both sides of the board.

**First Side Components**

1. **R1, R4**
   - 330Ω Resistor
   - Orange-Orange-Brown
2. **R2, R3**
   - 10KΩ Resistor
   - Brown-Black-Orange
3. **C1, C2**
   - 0.1 μF Capacitor
4. **4-Pin Connector**
   - Pins do NOT go into the hole of the circuit board.
5. **Q1**
   - MPSA-A65 PNP Transistor
   - Looks like Q2-Read Label!
6. **Q2**
   - C5019 NPN Transistor
   - Looks like Q1-Read Label!

**Second Side**

1. **L1**
   - Red LED
2. **L2**
   - Green LED
3. **IR Optical Sensor**
