

We still think that the most important trait is the willingness to work hard. Curiosity, ingenuity, determination, creativity are also a short list of important qualities.

- innovative
 - energetic (always looking for something to do or think about)
 - creative
 - logical
 - problem finders
 - problem solvers
 - love to think about the big picture
 - intelligent
 - intuitive (about the way things work or what the world needs)
 - never satisfied with what is
 - great brainstormers
 - they see many possibilities
 - tenacious at solving problems and in defending their ideas
 - imaginative
 - enjoy reading about and researching topics of interest
 - often need to work in the higher levels of Bloom's Taxonomy: analysis, synthesis, and evaluation to be appropriately challenged
 - ask lots of questions
-

1. Creative
